

Glory B Flower Essences

“A complete apothecary of Flower Essences”

“In the Beginning I asked the angels how to create healing gardens to provide remedies we currently need.

The guidance I’ve received over the past twenty two plus years inspired me to create Glory B Flower Essences.

These flower essences are effective and spectacular, a true gift from Spirit!”

WELCOME to NAMASTÉ SANTUARIO

the magical gardens of Glory B Flower Essences in Santa Barbara

Flower Essences contain the healing vibration of flowers. Every plant holds its own unique configuration and its vitality can be enhanced by the location and loving care it receives while growing. Our sanctuary, Namasté Santuario has been created with the highest respect to all the factors that form the best nurturing environment. It is a blessing to receive the benefits of this healing sanctuary by the way of Glory B Flower Essences.

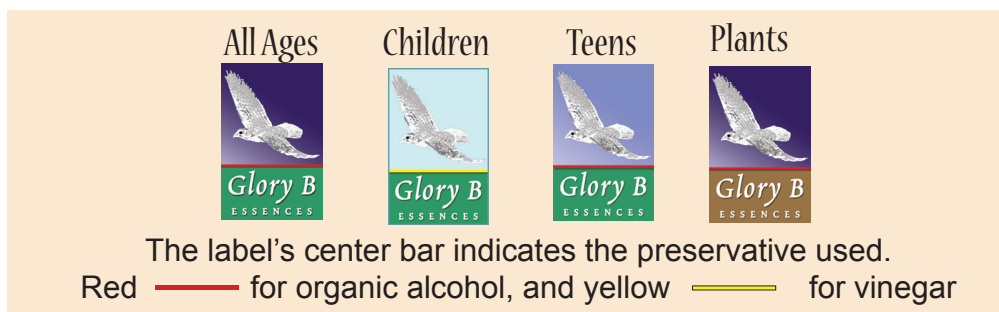

Each single flower used in creating Glory B Flower Essences has been certified organically grown. With great consideration to the entire habitat no harmful chemicals or cell phones are allowed in the gardens. In this private ecosystem there is little interference by machinery, but there is a lot of humming; of birds, bees and devas.

Santa Barbara has always had the very special reputation of beauty. It is thought to be a part of ancient Lemuria where the medicinal properties of plants were activated by Spirit. ...most of Santa Barbara still shines with its beautiful landscape. Our sanctuary is an extraordinary site that sparkles with healing vitality.

Namasté Santuario has been a co-creative collaboration with Nature. From the beginning, and every step along the way, Glorianna asked the angels/nature devas for directions in creating healing gardens that would provide the remedies we currently need. The guidance she received over the past 22+ years has lead to the creation of Glory B Flower Essences.

So when you obtain a bottle of Glory B Flower Essences, you have in your hands a plant vibration that happens here at Namasté Santuario. These flower essence blends are effective and spectacular, a true gift from Spirit! The chart below explains how the 64 Glory B Flower Essence Blends in this catalog are color coded to denote the suggested age group and the primary ingredients used in the blends.

What are Flower Essence Blends?

Glory B Flower Essences start with the traditional process of making an infusion of flowers with spring water. Only flowers at their full perfection are picked. After the infusion is in the sun for a few hours, the flowers are removed from the water.

Now the flowers' energetic template is held by the water and this is called a flower essence. When a person uses a flower essence, they are receiving the pure vibration of that particular flower!

Glory B Flower Essences are made by combining many of these essences in special steps. The final result is a "blend of blends". A variety of ingredients are used in bottling. You will taste the organic alcohol, organic vinegar or organic oil that is used as a preservative.

Unlike essential oils, you will not taste or smell the flowers. Remember that flower essences differ from essential oils in that oils are made through steam distillation while flower essences are made by herbal infusion.

What's available:

You can choose specific blends for emotional support for all ages...plus there are flower essence blends for anointing, releasing environmental problems, special occasions and more...

This all comes as a gift from the garden. Yes, we and the world herself are going through a big transformational shift. These flower essence blends offer us the support to become balanced as we evolve.

We want to function in greater health and rhythm. As always Nature provides us with everything we need to do this. We just need to realize that the answer we look for is right in front of us. All we have to do is harvest it. These flower essences are true answers.

How to use flower essences.

The directions on each bottle include an affirmation to say after taking the essence (directions also in Spanish). When using the essences in water be sure to use bottled spring water, never chlorinated water. Use real glasses, not plastic. When using in a bath, be sure not to have soap or anything but water in the tub. The main thing to realize is that nothing should contaminate the ingredients. If that should happen, the liquid would no longer be a flower essence. Flower essences are user friendly. There are no possible ill effects nor will they interfere with other remedies that you may be using.

A note from Glorianna...

All of the names and information about Glory B Flower Essences are my choice of words describing the feelings I sense while using the essences... when you try them for yourself, you will see that words alone can not describe their potency.

About Namasté Santuario

Glory B Flower Essences are made from organically certified flowers grown at my private sanctuary, Namasté Santuario. We are proud that our sanctuary is a certified organic farm by California **Certified Organic Farmers (CCOF)** and that our Glory B Flower Essence Blends are officially certified organic by CCOF and USDA.

Our intentions for developing Namasté Santuario:

- 1) To position all plants so that the garden, as a unit, will radiate a balancing and harmonizing energy to positively affect the planet.
- 2) To make special healing remedies from our flowers and plants.

After 22+ years as a steward of this sanctuary my intentions have become a reality.

This lovely Santa Barbara garden has become a site for unusual plants that abound in beauty and healing energy! The healing energy held within our flowers is the only source of our Glory B Flower Essences.

Glory B Flower Essences offers "a healing garden in a bottle". All the flowers are organically grown in this nature sanctuary. Individual essences are created then the blending and bottling is done right here on site.

Only blends of flower essences are offered (compared to single flower essences). I use all organic ingredients and high quality violet **Miron bottles** from Europe. This you won't find elsewhere. Glory B Flower Essences is a cumulative effort of 22+ years. I am very pleased with the results!

BioGenesis is the Birth of Creation. We instill the remembrance of the Process of Creation into a glass, and that glass radiates, or re-educates, its environment with the memory of the Process of Creation. Restoring the memory of this Process within an individual or object creates a living system—it becomes living matter. While this ancient technology has not been on Earth since the days of Atlantis, Ascended Masters recently re-introduced this effective energy to the World.

Glory B Healing Sets combine Glory B Flower Essences, BioGenesis Healing Tools, and a Gemcomb. This can be used professionally or at home for your family and friends and now ANIMALS! All of these items can be used in the suggested protocol described in our web site as well as how they are generally used by themselves.

GemCombs are lovingly-made by shaping a comb from a solid gemstone. Gemstones are commonly used for energetic healing, providing what a person needs and transforming them to a balanced state. We particularly use these special GemCombs in our Glory B Healing Sessions to release trauma/difficult memories from a person's aura/template.
